WORK EXPERIENCE

Frontend Developer | 360 Solutions Agency

2023 - 2025 (1.5 years)

- Delivered web applications for multiple clients while adhering to strict timelines and requirements
- Collaborated with design and backend teams to implement responsive user interfaces
- Translated client business requirements into functional web solutions
- Built reusable components and implemented client-specific customizations
- Participated in client meetings to gather requirements and provide technical feedback

Frontend Developer | Alhuda Software House

2022 - 2023 (1 year)

- Created clean and attractive UI components that fit the project needs.
- Created interactive prototypes using Figma for client approval
- Implemented designs using HTML, CSS, and JavaScript
- Gained hands-on experience with UI/UX principles and best practices
- Worked with senior developers to improve design implementation

EDUCATION

I-C-S (Intermediate in Computer Science)

2022 - 2024

- Prime College

SKILLS

Frontend Development

Languages & Frameworks: JavaScript (Advanced), TypeScript, Angular (19+)

State Management & Libraries: NgRx, RxJS, Angular Material

UI & Design: Tailwind CSS, Bootstrap, Figma

Backend Development

Languages & Frameworks: Node.js (Express) , RESTful API Development

Database Technologies

MongoDB, PostgreSQL, Firebase , Redis

DevOps & Deployment

Containerization: Docker (Basic Kubernetes)

Server Management: NGINX, Linux Configuration

Cloud Services: AWS (EC2, S3)

Version Control & CI/CD: Git, GitHub, Basic CI/CD Pipeline Implementation

PROJECTS

Video Downloading Web Application

Built a high-speed video downloader with an Angular frontend and a Dockerized Node.js backend using YT-DLP. Optimized performance with an NGINX server and Linux firewall, delivering 500MB files in 10-15 seconds. (www.socialclip.site)

Animated Content Streaming Platform

Developed an ad-free streaming site with an Angular frontend, Firebase storage, and infinite scrolling. Built a CRM for content management and architected the platform into three modules: main website, CRM, and download section. (www.animovi.com)
